EXPERIENCE

Frontend Engineer
Nîmes, FRANCE | 2020 - Present

Freelance

- Developing the frontend architecture of several web applications;
- Collaborating with UX/UI designers in order to implement visually appealing and user-friendly interfaces using React and Angular;
- Optimizing frontend performance and scalability through code, caching, and other techniques;
- Implementing backend APIs and third-party services (such as Cloudflare, SendGrid or Zendesk);
- Developing automated tests for frontend code and implementing continuous integration and deployment (CI/CD) pipelines.

Web Developer
Porto, PORTUGAL | 2019 - 2020

Cloisonism

- Developing and maintaining a user-friendly digital gallery website using React;
- Collaborating with designers and back-end engineers to implement new features and improvements;
- Optimizing website performance and troubleshoot technical issues;
- Developing a custom Content Management System using Angular and MySQL.

Operations Technician
Nîmes, FRANCE | 2015 - 2019

Crédit Agricole du Languedoc

- Monitoring and maintaining internal network infrastructure;
- Ensuring efficient operation of all hardware and software systems;
- Contributing to development and implementation of new systems and technologies in an end-to-end perspective
- Creating and maintaining technical documentation (requirements) and procedures
- Elaborating a disaster recovery planning and applying cybersecurity measures to the entire agency.
